WEDNESDAY, JULY 18 1866.

THE Gubernatorial campaign is about opening in earnest, and public meetings for Geary and Clymer are announced to speedily come off at different points throughout the State. In Allegheny county there has, as yet, been no public demonstration by either party, but we learn that the Executive Committee intend holding a grand opening rally within a few days. From this, the banner county of the Union party, in the State, General Geary will receive an overwhelming vote—such as was rolled up in past campaigns for the great and good Lincoln.

THE Congressional conferees of the Twentieth District will meet on Friday next, at Franklin, Venango county. Crawford, Venango, Mercer and Clarion counties are represented in the district. Clarion and Venango counties having each been represented in Congress since the formation of the district, the contest for the succession will naturally fall between the counties of Mercer and Crawford. We understand, however, that Mercer will present no candidate, and Crawford county will press the claims of J. Newton Pettis, Esq.

THE Memphis *Argus*, a violent rebel paper, said of Andrew Johnson in 1861 :

"We should like to see Andrew Johnson's lying tongue torn from his foul mouth and his miserable carcass thrown out to poison mad dogs, or hung on a gibbet as high as Haman, to feed the carrion buzzards."

Since Andrew Johnson has determined not to "make treason odious," the *Argus* thinks better of him, and now says:

"The iron firmness, the undisuaged soul of a single man, (Andrew Johnson,) is all that stands between us and the fateful vortex of anarchy and resultant despotism which has engulfed the lives and fortunes of so many millions before us. Let us rally to the side of that man, determined to save or perish with the Republic."

FORTY THOUSAND names appeared upon a petition recently presented to the Corps Legislatif of France. By the request of the Government it was laid upon the table, as the English Government is collecting interesting statistics regarding the question, and a special commission is preparing an elaborate report. So soon as it shall have been published the important question will engage the attention of the Corps Legislatif.

THE names of a number of able gentlemen have been presented for the Union nomination for Representative in the 17th Ohio District. Among them is that of General Chas. F. Manderson, who adds to a fine reputation as a young lawyer, no inconsiderable fame won as commander of the 19th Ohio Regiment.

AT a mass meeting in Montreal, of the opponents of the proposed Free Trade bill before the Canadian Parliament, the Mayor of Montreal said if the new tariff was carried it would drive twenty thousand men out of that city to the United States.

SPURIOUS 5-20 coupons, duplicate and triduplicate, upon which gold has been paid, are being presented at the Treasury Department in large numbers. No wonder the public debt keeps on swelling.

It has been ascertained that large numbers of army officers received pay several times for the same month's service. One fortunate fellow got paid thirteen times for one month's service.

GOVERNOR ORR, of South Carolina, writes there is a great destitution in some parts of that State, and requests that rations be distributed through the freedmen's bureau agents.

GENERAL BRIEF.

—Vesuvius is on the rampage again.

—The Davenport Brothers are at Brussels.

—Philadelphia is thinking of public baths.

—The great tunnel of Chicago is nearly finished.

—The book trade is said to be very dull at London.

—It costs Queen Victoria $5,000 to make a Scotland tour.

—Edwin Forrest will return to this country via Australia and England.

—The Austrian convents have been forced to contribute liberally towards the war.

—General Lane's remains were buried on Friday, on account of rapid decomposition.

—Quicksilver in large quantities has been discovered on an island off the coast of Istria.

—Chicago—according to the new Directory—sees her last year's population and 20,000 better.

—A man was mortally stabbed in Troy, N. Y., for attempting to get a peep at a lady's face on the street.

—General Sherman arrived at Boston on Friday, and was enthusiastically received by the citizens of that place.

—A St. Paul paper advances as an argument for building a railroad, that the Mississippi river is drying up year by year.

—A Kansas paper is very complimentary to the revenue officer of its town. It thinks him a man of the right stamp, though a little two-cents-tive in some things.

—When General Gregory went to Texas he visited a lawyer at his office and asked him for a copy of the laws of Texas. The lawyer opened a drawer, took out a large and handsome bowie-knife, and gave it to the General.

—A quarrel occurred at Knoxville, on the 13th, between a son of Governor Brownlow and another editor, in which young Brownlow is said to have been worsted. He armed himself with a revolver, and avowed his intention to shoot his opponent on sight.

—A legal examination elicited the fact that a Chicago quack ordered for consumption a compound of tar, vinegar and sassafras to be kept at the head of the patient's bed in a jar, and occasionally stirred; and for sore eyes he used an ointment made from the fat of a black cat.

—Reliable intelligence from Brazil mentions that nearly every American emigrant who has arrived in that country since the close of the war has fared badly, and quite a number have already set sail again for home. Others would do so but for the fact they have not the means wherewith to return.

—One or more burglars entered the house of Mrs. Brock, at Springfield, Ohio, on Saturday night, making their first visit to the room of the servan girl, whom they attacked and endeavored to choke. The girl was both courageous and physically powerful, and the ruffians were beaten off, the family aroused, and the invaders compelled to take to flight. They escaped, but carried nothing awy.

—The controversy in the noted "Moore Claim," at San Francisco, has recently assumed a new phase, which promises to cloud the title to one-half the property in that city. This claim is made by J. K. Moore, and comprises the territory bounded by a line stretching from "a little island in the Mission Creek," on the south, "to the shore of the bay," on the north, "in a line with Alpheus Island," and as far west as "the shore of the ocean," and "does not know about a distance of two miles." It has been in the courts of San Francisco for twelve months past, and is soon to be decided.

Important to Young Men.

Many a young man gifted with a strong constitution, and full of health and vigor, is oftentimes made to grow thin and pale without his being aware of the cause. It may be induced by the excesses of labor, or by dissipation, under which a strong constitution must succumb. In such cases many resort to stimulants in some form or other, which, if persisted in, will gradually undermine the health, and wear out the functions which sustain a healthy organization. There is a sure and safe remedy for this state of things in *Dr. Keyser's Blood Searcher*. A stimulant in itself, of slow but sure powers, that will in nearly every case, if the directions are followed, effect wonders. Dr. Keyser's Blood Searcher is a stimulant without the usual depression and prostration which is induced by many other preparations which are now so common. It is a real, genuine medicine, prepared with great care, and compounded of materials of known and tried efficacy in the healing art. There is no known preparation with which we are acquainted that imparts as much true, genuine merit, and has cured as many diseases of a chronic character, as Dr. Keyser's Blood Searcher. We know hundreds of persons, young and old, who from being pale, emaciated and sickly, have, by the use of this great remedy, had the hue of health return to their countenance, and the once emaciated limbs recover their suppleness and vigor. This is no sketch of the fancy, but real honest facts, which have a living existence in numbers of our citizens, who, by Dr. Keyser's Blood Searcher, have been restored to health and usefulness in the community.

Price $1 per bottle, or six bottles for $5. Ask for Dr. Keyser's Blood Searcher, and take no other, at the Doctor's Great Medicine Store, 140 Wood street, sign of the Golden Mortar.

Hostetter's Stomach Bitters—A Hundred Curatives in One.

Not the least striking merit of Hostetter's Celebrated Bitters is the wide scope of their operation as a preventative and remedial preparation. As a *protective* medicine they warn off all the diseases—under whatever name in legion—that originate in unwholesome air, impure water, exhausting heat, or other local and climatic causes. This alone would be sufficient to secure for any corrective and alterative medicine a world-wide and undying celebrity. But Hostetter's Great Specific has a hundred other claims to the confidence and high consideration of the public. In Dyspepsia, Liver Complaint, Chills and Fever, Bilious Remittent Fevers, Cholera Morbus, Cramps, Colic, Constipation, General Debility, Premature Decay, Female Irregularities, Constitutional Weakness, Sea Sickness, Diarrhœa, Dysentery, Flatulency, Vertigo, Fainting Fits, Hysterics, and all complaints proceeding from imperfect digestion, and a disordered condition of the liver and bowels, Hostetter's Stomach Bitters are the most powerful, speedy, harmless and agreeable of all remedies advertised by the press or administered in family practice.

Hostetter's Bitters

are sold wholesale and retail at very low rates at Fleming's Drug and Patent Medicine Depot, No. 54 Market street, corner of the Diamond and Market, near Fourth street.

REVIVAL OF ANTI-RENT TROUBLES.

Sheriff Successfully Resisted in Endeavoring to Execute Writs of Ejectment —Military Ordered Out—Excitement at Albany.

ALBANY, N. Y. July 17.—The Anti-Rent troubles have broken out afresh in the county, and have assumed quite a serious character. Sheriff Fitch, while endeavoring to execute a legal process, has been forcibly resisted, and he and his deputies assaulted. The sheriff left here, yesterday, to eject one Peter Varner, from the premises occupied by him. He was accompanied by six Deputies. His arrival at the place was five miles from "the seat of war," was in some manner communicated to the disaffected, and from Knower's Station out they were met all along the road by persons who gave expression to their feelings by demonstrations of a varied character. Arriving at the House of Mr. Varner, they were confronted by a party of twenty-five, who, however, offered no opposition. The doors were locked, and although the sheriff informed the inmates that the matter might be readily adjusted, they would not admit him. He then burst open the door and proceeded in getting one of his large hands, when the latter was forced back, and his limb very severely squeezed. Finally he effected an entrance, when he again attempted to consult, but to no purpose. The sheriff then proceeded to execute the writ of ejectment by removing the furniture, but as soon as they proceeded to the work, they were assisted in all sides by upwards of seventy-five residents and descendants of the tenants, whom were mashed of in the several blows, and Deputy James Gallagher was roughly used.

Finding it impossible to execute the writ with a respectable force at his command, the sheriff withdrew from the premises, the anti-renters shouting at him and challenging him to make an arrest. They were armed with clubs, but disguised no fire-arms, although it is believed they had them about. They called the sheriff by his name, and gave him to understand that they would not submit to do so would be violently resisted no matter what might be the result.

The Sheriff and his party then returned to this city and at once issued an order to the commanding officer of the 15th regiment of the New York S. N. G. to detail one hundred men, fully armed and equipped to proceed to the scene of the disturbance, and to aid him in executing the writs of ejectment held by him.

The troops will leave Troy early morning at 5 o'clock, and will remain in the city of Albany until the arrival of Governor Fenton, who may effect matters so as to render the services of the troops unnecessary. The Governor will leave for Albany this evening.

The Sheriff has also issued an order to the commanding officer of the 10th regiment of the New York S. N. G. to detail one hundred men, fully armed and equipped to proceed to the scene of the disturbance, and to aid him in executing the writs of ejectment held by him.

The troops will leave Troy early morning at 5 o'clock, and will remain in the city of Albany until the arrival of Governor Fenton, who may effect matters so as to render the services of the troops unnecessary. The Governor will leave for Albany this evening.

James McFarland, and will remain in the city affected districts so long as their services may be required. The force to be despatched consists of the enemy, the whole of the militia of the county will be ordered out. There is a considerable number of well drilled and uniformed company armories are busy places to-night.

FROM THE WEST.

Legislature to Reassemble—Governor Oglesby Issues a Proclamation—Gen. Thomas for President—Address of Gen. Thomas to the Regular Army—Speech of Gen. Sheridan—Speech of Ex-Secretary Senator Stanton.

WASHINGTON, July 17.—The following dispatch was received here to-day from General Thomas:

NASHVILLE, Tenn., July 14, 1866.

Hon. Gen. Grant, President of the Tennessee Centennial Exposition, Nashville, Tenn.:

The Centennial Exposition in a very brief time will be ready to receive articles for exhibition. Please inform me what space you will require for the display of the articles from the United States Regular Army, and I will endeavor to have the space assigned accordingly.

GEO. H. THOMAS, Maj. Gen. Com'dg.

The following address was immediately given:

NASHVILLE, July 12.—Gen. Grant will address Gen. Thomas' command this afternoon at 5 o'clock. The fact that the Secretary of War is temporarily absent from the country does not warrant the abandonment of military authority. The Government of the peace in Nashville and the State of Tennessee is the authority of the United States, and I propose to maintain it in my way in the controversy between the people and the Legislature of the State, as far as I am entrusted with the power. I am instructed strictly by Senator Johnson, my immediate superior in Washington, to maintain the peace.

E. M. STANTON,
Secretary of War.

Governor of Tennessee.

BALTIMORE, July 17.—This has been the hottest day experienced here in many years, the thermometer ranging from 96 to 98 in the shade. Several heavy persons were prostrated by sunstroke.

The Derby Cabinet has been installed.

The Havre cotton market to-day is very quiet; Teres Bas, ordinary, 170@172f; Bas do, 190f.

From Paris papers of the 7th: The Augsburg *Gazette* says that Benedek has demanded thirty thousand reinforcements.

The same paper has a report that Arch Duke Albert has been appointed to supersede Benedek.

The fortifications of Vienna were being increased, and five thousand gunners are now a position.

A Prussian army, debouching from Electoral Hesse, has entered Wurtemberg.

A fight occured at Meinneigen, on the 4th, between a Bavarian corps and a Prussian army under Earl Fulrenstein, in which the Bavarians were entirely evacuated Lounsdary, and retired across the Mincio.

Vienna, Thursday, July 5.—Gen Benedek addressed the following dispatch to the Emperor: Yesterday at three o'clock in the morning, after a brilliant contest of five hours duration against that huge force, with only a small army, I was forced by the rain, succeeded in establishing himself unperceived at Chlum. Our lines being thus broken through, we were compelled to retreat. The retreat was effected successfully on Pariubetz.

The King decorated the Prince on the field of battle, with the order of military merit.

The losses are not yet known, but they are considerable.

Vienna, Thursday, July 5.—It is announced that Count Clam Gallas, in command of the First corps of the army of Northfield, Marshal Baron Benikstein, Chief of the Staff, and Major General Kayanauler will be brought to a court martial.

Berlin, July 5.—The Queen has been several times to see the wounded, who fill the hospitals. She has received several ovations from the publics. The victory gained by the Prussians has produced great enthusiasm in Berlin.

Prussian camp, July 5.—The army, under the orders of the Prince Royal, although distant from the field of battle, has received the congratulations of the Austrian upon all fortified positions on the Venetian line. The evacuation of Venetia is complete and definite and without any other condition on the part of Austria except to withdraw the guns, arms and ammunitions of war found in fort Sed place within forty-eight hours. The whole of Venetia will be French territory, and it will depend upon its good will of France either to keep or to part with it.

It is the intention of Austria to continue the war against Prussia. If she persevere in her present determination, the project of federal reform, communicated to the governments of Northern Germany, the Emperor Francis Joseph declares his resolution to transfer his capital to Pesth, should he be unable to defend Vienna, and to call to arms the whole population of his State.

FROM WASHINGTON.

Retirement of Attorney General Speed —Resignation of Freedmen Clarke Accepted—Gen. Howard.

WASHINGTON, July 17.—Mr. Speed retired yesterday from the office of Attorney General, immediately upon dispatching his resignation to the President. Mr. Speed has been in public life in this city, engaged in preparing to leave for Kentucky next Monday.

Hon. Freeman Clarke's resignation of the office of Comptroller of the Currency has been accepted by the President and referred to the Secretary of the Treasury, who, under the law, will appoint a successor.

The Secretary of the Treasury has appointed Hon. A. Wells, now chairman of the Revenue Commission, to the vacancy. It is believed Mr. Wells is the first instance in our politics where a new civil office has been created by Congress in order to reward the services of a prominent politician. This bill having become a law only on the understanding that the appointment would be made as indicated.

The Revenue Commission expired by virtue of the act of July 18th, 1866, on the first of the following month. The duty devolved upon the Commissioners to report to each of its members and Congress a code of generous laws and regulations for the collection of internal revenue and a verification of their official accounts.

The reports of the Commissioners are about to be issued entire by Congress, making a book of some volume of four hundred and eighty pages.

The War Department has ordered, at the instance of the President, the release on parole of all prisoners of war, except military court, and have been imprisoned for the crimes of those who are under sentence for the crimes of treason, arson or rape. Those who are under sentence for the crimes of treason, arson or rape, will be released from imprisonment by the President, and will be required to report to the Provost Marshal General of the State in which they may be found, and will be required to take the oath of allegiance

THE TARIFF.

It has been evident for a month past that such a revision of the import duties as was demanded alike by the manufacturing, agricultural and commercial interests of the country, and as would at the same time fortify the public credit, could not be obtained. As soon as the discussion was approached in earnest the Missouri *Republican*, which had powerfully advocated the establishment of diversified manufactures in St. Louis as the only direct way to permanent and great prosperity, was overpowered by party discipline, and joined lustily in the cry that such a tariff as would make the introduction and support of manufactures possible, on a broad scale, would be necessarily unequal and tyrannical; that it was far better to jog on in the old way, raising grain and meat, and sending those commodities to Europe in exchange for manufactured goods, and balancing the deficit by a steady export of gold and national and corporate bonds. It did not say this in plain terms; but this was the inevitable logic of its inculcations. The Chicago *Tribune*, which is the most vehement and perpetual scold of all American journals—which so delights in startling antithesis that it constantly rushes from one extreme to another, regardless of all sense of consistency—dismounted the hobby of Protection which it rode all last winter, unlearned the argument of its editor, embodied in a flaming speech at the formation of the Protective League, in February—if we remember aright—and became more flippant and virulent in demanding Free Trade than the New York *World*. The New York *Times*, whose conductors were educated in the political philosophy of Mr. HENRY CLAY, followed in the same direction. These are mentioned only as notable instances of defection.

Of course, the burden of complaint was that the proposed law was dictated by New England, and designed to benefit her peculiar industries at the expense of the industries of other States, particularly those of the West and South. Every intelligent man knew that there was no truth in these statements; that New England originally espoused the doctrine of Free Trade; got its first commercial start under it, during the French Revolution and the first Napoleonic empire; was subjected to vast losses by non-intercourse, the Embargo and the second war with England, all measures in aid of Protection, and carried by a coalition of Southern and Western members of Congress; and that she finally accepted Protection when the friends of that policy in other portions of the Union, became so powerful and numerous, that further resistance was unavailing. Besides, it is well-known that manufactures of many sorts, have taken such root in New England that inadequate protection will operate less injuriously there than elsewhere. Hence, a number of the New England Senators resolved to take the responsibility of postponing the further consideration of the Tariff bill till next December. They felt their section could stand it as long as the rest could.

However, the manufacturers have some satisfaction in the reduction of the Excise duties. The diminution of governmental income contemplated by the new bill is one hundred millions of dollars, of which, it is computed, fifteen millions will be taken off from the inhabitants of Pennsylvania. Perhaps these figures assign to our people a greater degree of relief than will be experienced practically.

The manufacturers made a serious mistake for themselves, last winter and spring, when they resisted a rapid and close approximation to a specie basis. Gold was then at $1.32, or perhaps somewhat lower. The Treasury Department could easily have worked down to the solid foundation of coin, not only furnishing stable ground for future calculations, but necessarily adjusting prices of labor, material and products on that lower scale. With one consent the manufacturers objected. They said, do not diminish the relative or actual value of Paper Money. If any deviation is made, let there be rather an increase than a falling off in irredeemable currency. The ideas and plans of the Treasury Department were overruled. The amount of specie was diminished by shipments to Europe, and the quantity of paper promises was enlarged. Gold went up to $1.52, where it still remains. If the other result had been produced; if gold had receded to par; the attainment would have been equivalent to an increase of the import duties to fifty-two per cent. advalorem—which is a larger increase of Protection than they can reasonably expect Congress to enact.

Now, a resumption of specie payments is farther off, apparently, than it was six months ago. Then it was near at hand, and could easily have been grasped. Now, it is far off, among the contingencies of the future.

POLITICAL DECLENSION.

Recently the Chambersburg *Repository* made some wholesome reflections on the degeneracy of Pennsylvania politics as exemplified in the section of mediocre men as United States Senators. The fault is not confined to either party. Since Mr. BUCHANAN, no individual, really conspicuous for ability, has been chosen to the Senate. Both parties have men of great intellectual superiority, but they are continually made to give place to men of inferior capacities and attainments.

In the eastern portion of the State several gentlemen have been named on the Republican side for the Senatorship about to become vacant. In certain respects each of them has become conspicuous; but not even their most ardent personal admirers, in moments when reason is allowed to assert its supremacy, will claim for any one of them more than a common degree of natural capacity or mental culture. They are prominent, rather for dexterity in manipulating caucuses, than for that grasp of understanding requisite to deal with problems of important national concernment.

Philadelphia complains that no one of her citizens has woan the Senatorial honors since Mr. DALLAS laid them down. For this she is herself principally to blame. She has through a long succession of years kept her most eminent and worthy sons in the background, refusing them recognition commensurate to their talents, and constraining them to act subordinate parts, if any. Who can tell for instance, what might happen if, upon the expiration of Mr. BUCKALEW'S term, she should ask a seat in the Senate for HENRY C. CAREY? A man greatly distinguished as a thinker, both in this country and in Europe, without a rival in exactitude and fullness of knowledge in the whole range of Political Economy, his intellectual supremacy would enforce acknowledgement, and the splendor of his name eclipse the pretensions of a score of smart politicians. While she has men of so peculiarly a representative character, she defeats herself, and firstly, by passing them over, and demanding preferment for men who have no intrinsic claims to priority, beyond hundreds of others in all parts of the Commonwealth. A change which shall amount to a positive reform is needed in this particular.

GENERAL NEWS.

—St. Louis employs 265 steamboats, valued at $10,370,000.

—The bitterest beer sold in London is called "mother-in-law."

—The first battle between the Austrians and Italians was fought on Sunday.

—The New York insurance companies lost $5,000,000 on the Portland fire.

—The gaming tables at Wiesbaden have been closed by the Prussian invasion.

—The Mayor of New Orleans has directed a closure of all gambling dens in the city.

—The "injunction cocktail" and "Cardozo smash" are very popular in New York.

—Four cases of the disease known as the "black death" have occurred in Dublin, Ireland.

—At a recent wooden wedding in New Jersey, several ladies wore curls made of shavings.

—Dogs, to the number of 2,350, have found watery graves in New York since June 19th.

—The settlers on the western border of Kansas are alarmed at indications of Indian hostilities.

—Mr. D. R Knight, a young Philadelphia artist, has just completed a life-like portrait of Governor Curtin.

—Infanticide is greatly on the increase in New York. There have been forty-five cases in the last six months.

—It is said that several cases in New York, which has been reported as cholera, were really the results of sun-stroke.

—In the last six months there have been three hundred and seventy-seven fires in New York, causing a loss of $6,000,000.

—As a distinctive mark, the Prussians are to wear a strip of white linen with a red cross worked upon it round their left arm.

—A popular life of Abraham Lincoln, in Italian, has been published in Florence, and is being sold for the benefit of the freedmen.

—The Paris papers announce the death of M. Joseph Mery, the celebrated French novelist, at the advanced age of sixty-eight.

—A number of cows have died in the vicinity of Vincennes, of a disease called the black tongue. Some suppose it to be the rinderpest.

—A colored girl in Georgia has brought a suit for breach of promise of marriage against a negro man. It is the first case of the kind known in Georgia.

—Norwalk is a lively town. A pickpocket was arrested there on Thursday last, tried, sentenced, and the next day started off for a seven years term in the Penitentiary.

—Fenian President Roberts has been indicted by the Grand Jury at New York for violation of the neutrality laws. He has been held in $5,000 for trial in Court.

—Nearly three hundred applications for situations in the Treasury Department as clerks, messengers, watchmen, &c., were received last week, but no appointments were made.

—Under the head of "Religious Intelligence," the New York *Express* has an article with the queer caption of "Hell for North Carolina." "Help" is probably the word intended in that connection.

—The Auburn (N. Y.) *Advertiser* (Mr. Seward's home organ,) regards the proposed Philadelphia Convention as a movement hostile to the Union party, and in the interest of the Democrats.

—The Soldiers' Cemetery near Fortress Monroe is nearly completed. About four thousand dead of Union regiments from the various battle-fields along the James and the Potomac have been already removed to to the new burying ground.

—An enterprising Californian has stafted for the east with a drove of horses, the native breed, some five hundred, intending to drive them into Missouri to supply the demand. The surplus horses cost but little on the Pacific slope, are tough, and can live on a bunch of grass.

—The serious charge made against Gen. Kilpatrick, Minister to Chili, of introducing a woman of more than doubtful reputation into the best society in Valparaiso, thus bringing disgrace upon the American name, has been investigated by the State Department, and the scandal proves to have no foundation in fact.

—Peat promises to be useful for other purposes besides fuel. A patent has been taken out by which picture-frames, bookbacks, card-paper, mouldings and decorations for furniture, bricks for building purposes, fronts for stores and all other articles in which bone, china rubber and gutta percha are component parts, can be manufactured from peat.

It it was a striking example of politeness in Charles the Second, when, on his death-bed, he begged pardon of the company in attendance "for being such an unconscionably long time in dying," it was certainly an instance of good manners scarcely less remarkable on the part of a gentleman who, at the funeral of his baby, apologized to the audience for presenting so small a coffin to so large an assembly! That man was a gentleman, you may be sure.

—A man living at a village near Mobile attempted to frighten some girls by wrapping a white cloth around his body and personating a ghost. All ran but one, who pulled out a revolver and fired six balls into the head and body. At the first shot the ghost fell, but she continued firing. She then went home and related the circumstance, and parties returning to the spot found life completely extinct, two balls having penetrated the forhead, and the other four the region of the heart.

Tiger Fighting at Saratoga.

The Springs are assuming yearly more and more the worst features of Baden-Baden. Under the attractive name of the Club House, Morrissey keeps the "tiger," where men, able and not able, go to have a round with the ferocious beast. This Club House has two aspects. The one is that of an orderly house, very quiet, with the best table in the place, the most delious wines, and faultless attendants.

Merchants, judges, millionaires, men reputed to be moral, can be seen here from day to day. Even men who have rooms and families at the hotels dine daily at the club house. Breakfast is on the table from 10 to 1; dinner from 6 to 11. The house closes at 4 A. M. This is one face the club wears. The other aspect is that of a house of gambling, where men seek and find ruin, and from which they depart in despair, and hurl themselves down in an hour to those depths from which they never come up—from which they sink in shame, woe and poverty, to their children's children. Police are detailed from New York to keep the peace within this club house, and these remain all the season. The annual races are a golden harvest to Morrissey.—*Cor. Boston Journal.*

POLITICAL.

—It is reported that Howell Cobb is to take the stump in Georgia in behalf of President Johnson's policy.

—A delegation of ex-rebel legislators and soldiers will be sent to the Philadelphia Convention from Louisiana.

—As candidates for the next Governorship of Tennessee, Judge Trigg and Thos. A. R. Nelson have been mentioned.

—Colonel John Doniphan is a candidate for the Conservative nomination in the Sixth Missouai Congressional District (Van Horn's).

—General Charles Devens is talked of as a candidate for Congress in the district now represented by John D. Baldwin—the Eighth Massachsetts.

—Colonel Poorman, of the Belmont *Chronicle*, is the rival of Mr. Bingham, the present member, for the Republican nomination in the Sixteenth Ohio District.

—The Republican Congressional Convention of the Sixth Iowa District will convene at Webster City on August 1st. Hon. A. W. Hubbard is a candidate for renomination.

—It is proposed that A. H. Stephens, H. V. Johnson and B. H. Hill, the two latter Senators in the rebel Congress, shall represent the State of Georgia in the Philadelphia Convention.

—The mass convention of Democrats and other nondescripts at New Haven, Connecticut, on the 1st of August, will select delegates to the National Convention at Philadelphia.

—Among the additional candidates spoken of for Congress, in the 2d West Virginia district, are Mr. Kitchen, of Berkely Co., and Mr. Farnsworth, of Upshur, and Judge Bunker, of Monongalia.

—The rebels have called a meeting at Jackson, Mississippi, for August 1, to decide respecting the sending of delegates to the Philadelphia Convention. A large number of rebel Generals are invited to be present.

—A plan is on foot among a certain clique of New York politicians to make Gen. Daniel E. Sickles the next Governor of that State. He has been written to on the subject, and is understood to be willing to make the canvass.

—Mr. C. A. Walborn, the Andrew Johnson Postmaster of Philadelphia, proposes resigning and running for Congress against Judge Kelley, if the latter is renominated in the fourth district. Of course "my policy" will hold the Postmastership open for Walton to slip into after his defeat, which is almost certain.

—The New York *Tribune* says: "It is stated, we know not with what truth, that General John A. Dix has written a letter favoring the Philadelphia Convention, and will probably be a member of it. The *Express* understands the matter but we shall wait before we quite believe that General Dix has "surrendered his sword."

—Hon. H. E. Paine is a candidate for nomination to Congress by the Republicans in the 1st Wisconsin district. In the 4th Congressional district Hon. Charles A. Eldridge desires a re-nomination from the Democracy. M. H. Carpenter, one of the most prominent war Generals of the State, announces himself as heartily endorsing the Congressional plan of reconstruction.

—The New York *Herald* has a story that Secretary Stanton has been invited to resign, and that the War Department will be put in charge of General Grant. In the impending break up of the Cabinet, it is by no means impossible that the emphatic War Secretary will retire from the position he has occupied with so much honor to himself and profit to the country. But there is not the remotest probability that his portfolio will be placed in the hands of the Lieutenant General.

PROPOSALS.
PENNSYLVANIA
Agricultural Land Scrip for Sale.
THE UNITED STATES GOVERNMENT having granted to the Commonwealth of Pennsylvania Land Scrip, representing 780,000 acres of Public Land, for the endowment of Agricultural Colleges in this State, the Board of Commissioners now offer this Land Scrip to the public.
Proposals for the purchase of this Land Scrip, addressed to "The Board of Commissioners of Agricultural Land Scrip," will be received at the Surveyor General's Office, at Harrisburg, until
Wednesday, August 15, 1866.
This land may be located in any State or Territory, by the holders of the scrips, upon any of the unappropriated lands (except mineral lands) of the United States which may be subject to sale at private entry, in any piece of scrip not less than a quarter section of one hundred and sixty acres. Bids must be made as per serve, and no bids will be received for less than one quarter section.
The Scrip will be issued immediately on the payment of the money to the Surveyor General, one-third of which must be paid within ten days and the remaining two-thirds within thirty days after notification of the acceptance of the bid or bids by the Board of Commissioners.

Have We Another "Star Chamber?"

During the administration of the dignitary who filled the Mayor's chair prior to the advent of the predecessor of the present Chief Magistrate, in consequence of the denial to reporters of customary facilities in procuring police items, we found occasion to use the term "Star Chamber," as applicable to the Mayor's office. We mention the fact as prefatory to expressing the belief that it might not be inappropriate for us to resume its use as *apropo* under the present municipal regime, it seeming to us that of all men else reporters are most avoided in the giving out of police news. The policemen seem to be specially cautioned as to their communications with them, and in response to the usual inquiry, "what do you know?" or "what has been done to-day," the man with the pencil and note book is referred to a memorandum or bulletin of the day's proceedings, exposed to view on the Mayor's desk. This is inspected. The name of the defendant appears, the charge against him is stated, and also the disposition of the case; but in vain, almost invariably, will the reporter seek for further particulars, and we have time and again taken our departure from the Mayor's office under the irresistible impression that it was ordered we should know just so much and no more. The idea has ever obtained with Chief Hague that an embargo should be placed upon reporters, that they should not be allowed to publish anything in the police way until such time as he should decide to make it known, believing that the newspapers were productive, in this regard, of causing difficulty in making arrests. This policy he caused Mayor Sawyer to adopt, and had things all his own way, and it appears to us that Mayor McCarthy has also become a convert. It may serve very well as an excuse for an officer to say that he would have succeeded in making an arrest had it not been for the publication of the facts concerning the robbery, burglary, or whatever the case may have been, but we venture the assertion that in nine cases out of ten such is not the fact, the reporter being blamed, while in truth the fault is with the officer, incompetency or lack of energy in the discharge of his duty being the real cause of failure. A crime is committed, and the police assume to know the guilty parties, what harm can come of the publication of the facts? The culprits become aware the police are on their track, without the aid of newspapers. In many instances offenders are known by others than the police, and their places of residence or resort visited. Then, what harm can the publication of their names do? This idea about newspapers we declare is simply absurd, and if the present administration continues the Hague policy, we shall insist upon designating it as a "Star Chamber Arrangement."

Troy Hill Liquor Seller Arrested—Release on Bail.

It certainly must be an unpleasant reflection to any one in the enjoyment of fresh air during this heated term to know that he is doomed to spend a term, no matter how brief, in the county prison, and from which there is no proper way of escape. Such a feeling is entertained by the individuals who were convicted or pleaded guilty, at the recent term of the Quarter Sessions, to selling liquor on the Sabbath day, the penalty for which is fine *and* imprisonment. One of the number is William Einstein, against whom there are no less than five indictments. Neglecting to appear at court, with a number of others in a like predicament, processes were issued for him. He is the proprietor of a beer hall on Troy Hill, and was visited on Monday by court officers Smith and Boston, who held processes for his arrest. Upon his assuring them that he would appear on yesterday morning, they did not exercise the authority reposed in them of arresting him at the time. He failed to comply with his promise, and on yesterday officer John Lant called upon him, when Einstein, having been permitted to go up stairs in his place of business for a stated purpose, attempted to make his escape by jumping out of a second story window. In so doing he injured himself so seriously that he was unable to profit by his strategy, and was conveyed to prison. Subsequently he secured his release by giving bail in the sum of $2,000.

Row in a Beer Hall.

In yesterday's issue we noticed the fact that there had been quite a disorder on Pennsylvania avenue during the preceding day, but were unable to give any of the particulars. We have since learned the occasion of the disturbance, which appears to be as follows: An immense number of Germans had assembled in J. H. Dittler's tavern, on the corner of the avenue and Magee street, for the purpose of enjoying themselves in a convivial way. Inspired by the late news of Germanic belligerency in Europe, they became pugnacious, and began pummeling each other after the most improved style of the prize ring. Several of the emergency police endeavored to effect an entrance in order to quell the disturbance, but the proprietor of the house closed the door and refused them admission. After some twenty minutes of patient waiting the door was opened and several of the participants in the quarrel within rushed out, and without delighting a word to any one, fell to the work of strife. From their damaged nasal organs and discolored optics, we judge they were anything but satisfied with the result of the melee.

St. Paul's Orphan Asylum.

The following named gentlemen have been elected Managers of St Paul's Orphan Asylum:

Rt. Rev. M. Dominec, Very Rev. J. Hickey, James McCabe, Thomas O'Rourke, John O'Connor, John Savage, W. H. Reel, Charles Maginn, Terence Campbell, John McKeown, Dominic Ihmsen, Michael Kane, Charles B. Kenny.

The Board then organized: President—Rt. Rev. M. Dominec; Vice President—Very Rev. J. Hickey; Secretary, Charles B. Kenny; Treasurer—Dominec Ihmsen. Receiving and Discharging Committee—John McKeown and James McCabe. Visiting Committee, Female Asylum—Thomas O'Rourke, W. H. Reel, C. B. Kenny. Male Asylum—Dominic Ihmsen, Terence Campbell, Charles Maginn. Building Committee—Thomas O'Rourke, James McCabe, W. H. Reel, John Savage, Michael Kane, John O'Conner. Very Rev. J. Hickey, Treasurer Building Committee.

An Oratorical Nuisance.

At a hearing in Alderman Butler's office yesterday, in which an Irishman named Patrick Kinslow was charged with surety of the peace, several witnesses testified that Patrick had been an intolerable nuisance to the neighborhood during the last ten years. It appears that the accused is in the habit of imbibing to some extent, and while under the influence of potations, he imagines himself possessed of some oratorical powers, which, with the aid of a strong voice, he feels on the public streets, much to the disgust of his neighbors. Patrick seemed astounded at the charge of nuisance, and declared that if he was such, there were a great many more respectable members of society equally liable to prosecution for the same offence. Held to bail.

Aggravated Assault and Battery.—Alexander Martin was before Alderman Taylor yesterday, charged with aggravated assault and battery on oath of William Arnold, who alleges Martin struck him with a heavy whip across the back, knocking him down, after which he jumped upon him. Several witnesses were called who corroborated Arnold's statement, and Martin was therefore required to furnish bail to the amount of $300 for his appearance at the October term of the Criminal Court.

A Leading Piece.—At the corner of Pride reef and Pennsylvania avenue, nightly, there congregates a crowd of men, who so completely block up the sidewalk that ladies find difficulty in passing, and many, declining to run the gauntlet of lager beer, ribaldry, cross to the opposite side of the street. The two men "in grey" who promenade the avenue would be but disharging a duty suggested and required of them were they to keep the sidewalk clear at the point stated.

Horse Died in the Street.—A horse belonging to John Rogers fell dead yesterday on Pennsylvania Avenue. He was hitched to a heavily laden coal wagon at the time, the weight of which, with the intense heat, completely prostrated him. The animal was not a very valuable one, but it was Rogers' sole property, and the loss will be keenly felt by him.

Disorderly Conduct and Surety of the Peace.—Frank made information against Agnes Holmes, yesterday, before Alderman Donaldson, for surety of the peace and disorderly conduct. Agnes was arrested and, failing to pay costs, for the last named offence, and held in $300 to keep the peace on the former charge.

Discharged.—Adam Sedler, whom we noticed a few days since as having been before Alderman Lynch, on a charge of assault and battery, preferred against him by William Conway, had a hearing yesterday before the magistrate, but the evidence being insufficient to warrant further prosecution, he was discharged.

A Big Hoptick.—W. C. Dilkes, Sr., has produced upon his farm, in Moon township, a radish measuring in length thirteen and a half inches, eleven and three-eighth inches in circumference, four in diameter, and weighing two pounds and three ounces. It was of the variety known as the early Scarlet Short Top.

Fire at Sharpsburg.—The Petrosa Oil Refinery at Sharpsburg, caught fire yesterday morning at two o'clock, by the explosion of the still. The only damage done was the destruction of some twelve barrels of refined oil. The flames were extinguished by throwing damp earth on the fire.

Another.—Arthur Gildersleine, while at work laying brick in the Seventh ward, on Monday, was taken suddenly ill from the effects of sun stroke. He was taken to his house, on Gum street, in the above ward, and is slowly recovering.

St. Bridget's Church.—St. Bridget's Catholic Church, now in course of erection in the Seventh ward, is fast approaching completion. It will be a very neat edifice in every respect, and well suited to the necessities of the congregation.

The Master Roll of "drunks" and "disorderlies" at the Mayor's office, yesterday morning, contained six names. The persons representing themselves were sent to cooler twenty-four hours in the county jail.

EARLY TELEGRAMS.

FROM WASHINGTON.

The Resignation of General Speed—Hon. H. S. Stansbury to Succeed Him—Resignation of Hon. Freeman Clark—Site for the Military Asylums—Tennessee Legislature—Reconstruction—Commission to Revise the Statutes of the United States—Resolution for the Admission of Tennessee Representatives—The Merchants' Bank Swindle—Gen. Speed's Letter of Resignation—Public Money on Deposit.

NEW YORK, July 17.—The morning papers have the following specials from Washington: The President, on receiving Attorney General Speed's resignation, immediately telegraphed to Hon. Henry Stansbury, of Kentucky, proffering him the appointment, and to-night received a reply which does not accept, but states that he (Mr. Stansbury,) will immediately come to Washington to confer with the President on the subject. Mr. S. will do doubt accept the nomination.

The Honorable Freeman Clark, Comptroller of the Currency, to-day tendered his resignation to the Secretary of the Treasury, to take effect on the 24th instant. This action by Mr. Clark has been contemplated for some time. He is said not to be very well pleased with the manner in which the National Bank legislation has been conducted by the House Committee, and as his relations with Mr. McCulloch have lately been unpleasant, he thus relieves himself from an uncomfortable position.

The Board of Managers of the National Military Asylum have deferred the location of any if so for building, and still await proposals from localities desirous of securing such an institution in their vicinity. For the purpose of organization they elected one Governor, Major General E. W. Hinks, of Massachusetts, and selected an Executive Committee consisting of the President, Secretary and General Hinks. They also adopted by-laws for the government of the Board of Managers, looking to the organization of the asylum and to a proper investment of the funds with a view to income. The fund now amounts to something in excess of $3,000,000, which will yield an annual income of about $180,000. The Board appropriated $45,000 to enable a system of outside relief to be organized in order to grant the necessary aid to such applicants as may be deserving of it in places where they cannot be provided for, in anticipation of the organized system of operations contemplated.

The following Postmasters were appointed to-day by the President: John H. Gould, of Lockport, N. Y.; John Ryan, of Medina; Alfred E. Brooks, of Ilion, N. Y.; Ira Godfry, of Utica, N. Y.

A private dispatch received here, from Tennessee, says the Legislature of that State today lacked seven votes of a quorum.

The following gentlemen have been selected as the members of the commission to review and codify the statutes and of the United States, in accordance with the act of Congress recently passed: Caleb Cushing, of Massachusetts, and William Baker Hubbell, of Ohio, and Return J. Meigs, of Washington. It is conceded to be a good selection.

It is quite likely that an effort will be made to admit the representatives from Tennessee in the House before the adjournment. A resolution to that effect will come up to-morrow or next day, and of its passage there is a strong probability of success.

The report of the investigation into the Merchants' National Bank swindle was submitted in the House to-day. It was accompanied with the evidence, which fills over a hundred pages, and shows a remarkable conspiracy to defraud the Government for the benefit of individuals, on the part of Hoyck, Bayne and others. The bank had been in operation for several months, and only buoyed up by counterfeit bonds, which went to Bayne & Co.

Attorney General Speed's letter of resignation is as follows:

SIR: I hereby resign to you the office of Attorney General of the United States. Be good enough, sir, to accept my thanks for the kindness, consideration and confidence you have ever shown to me.

I have the honor to be, most respectfully,
JAMES SPEED.

There is considerable speculation as to who will be appointed Vice President *pro tem* of the Senate before the adjournment. Senators Pomeroy, Wade and Sherman are mentioned, but it is conceded that the East should have it, as the President pro tem and Speaker of the House are both from the West. The question will probably be settled by secret caucus.

The Bill for the regulation of the election of United States Senators will probably be called up in the House to-morrow and the previous question moved.

The following is the recapitulation of the returns to the Banking Committee from the Assistant Treasurers and Government Depositories respecting the amount of public money on the first of May, 1866. Amount of coin on deposit, $99,524,474; amount of currency on deposit, $94,317,999. Total, $193,842,473; less over drafts, $4,695, leaves, $193,837,778. Amount on deposit to credit of Treasurer, $46,765,501; Total, $240,603,189. Amount to the credit of the Treasurer is as follows: With Assistant Treasurers, $163,683,267; National banks, $76,955,193; Total, $192,170,639. Amount to credits of disbursing officers is as follows: With Treasurer and Assistant Treasurers, $30,384,931; with National banks, $18,260,220. Total, $48,515,170. Add amount to credit of Treasurer, $192,170,639. Total, $240,685,709. Less overdrafts $97,640. Total public money May 1st, $240,585,169.

FROM NEW YORK.

Fears for the Safety of the Emigrant Ship "Monarch of the Seas"—The Weather in New York—Arrival of Missionaries.

NEW YORK, July 17.—The large emigrant ship "Monarch of the Seas," which sailed from Liverpool on the 19th of March last for New York, has been four months at sea, and fears are entertained that some disaster has overtaken her, and that she has gone to the bottom with all on board. She had six hundred and seventy-four passengers, and a crew of fifty-four men, including officers. The vessel was valued at $125,000, and is fully insured.

The thermometer in the shade at eight o'clock this morning is ninety-six degrees, and still rising.

Yesterday was the warmest day for the last ten years. There were twenty-five cases of sun stroke in the city, thirteen of them proving fatal. In Brooklyn only six cases are reported, two of them being fatal.

The steamer Teutonia, from Hamburg, and Talisman, from Jamaica, have arrived, but bring no news. The Heroic, from Havre, is signalled.

Gen. Dix Endorses the Philadelphia Convention.

WASHINGTON, July 17.—The following letter has been received by Senator Doolittle from General Dix, containing his views in regard to the Philadelphia Convention:

New York, July 13.—My Dear Sir: I have received the call issued by certain gentlemen for a National Union Convention in Philadelphia on the 14th of August. I concur in its propositions, its resolutions and its objects, and will do all in my power to carry them out. I long since expressed the opinion that the States were entitled to their representation in Congress, that their exclusion was a violation of good faith and of the obligations of the Constitution, and that a persistence of such a policy must lead to consequences most disastrous to the peace of the country. These and other considerations connected with the present unsatisfactory relations of the States to the Federal Government and to each other, render most timely and proper such a meeting as you have recommended, of the patriotic and reflecting men of the Union, to consult together for the general welfare.

I am truly yours,
JOHN A. DIX.
Hon. John R. Doolittle.

From Memphis—Outrage Upon a Loyal Citizen.

MEMPHIS, TENN., July 17.—During the war General Clary, Deputy Quartermaster General, occupied the house of a loyal citizen, Mr. Duval, then residing in Philadelphia, as quarters. Since then Duval instituted a suit for rent and recovered the amount claimed. On the Sheriff attempting to carry out the orders of the Court, Clary brought in a guard and ordered them to put him off the lot, or kill him. On Saturday, as Cary was leaving on furlough, the Judge ordered the Sheriff to arrest him, but he evaded the posse by engaging passage on one boat and leaving on another, taking an armed guard with him. The *Post*, a Radical paper, says he disgraced the uniform he wears and the Government he represents by setting civil law at defiance.

Tennessee Legislature—Arrest of Refractory Members.

NASHVILLE, July 16.—There was no quorum in the House, only fifty members being present. A member named Williams, from Carter county, was arrested by the Sergeant-at-arms and brought to the House and held in close custody. Judge Frazier issued a writ of habeas corpus in favor of Williams. A resolution passed to arrest seven other refractory members.

The Governor commissioned the Police Commissioners to-day.

FINANCE AND TRADE.

TUESDAY, July 17, 1866.

The New York stock quotations to-day, were as follows: Gold, 140¾; 1881s, 109½; 5-20s, 107⅝; 10-40s, 99; 7-30s, 106⅛; Certificates 100⅝; Cleveland & Pittsburgh R. R., 93½; Fort Wayne, 98½; Erie, 66⅝; Western Union Telegraph, 82⅝.

—The actual treasury receipts for the year ending June 30, as near as they can be estimated before the receipts from the Pacific coast are returned, are compared with two previous estimates in the following figures: From customs, 169 millions, against 70 millions estimate of Secretary, Dec., 1864, and 147 millions estimate of Dec., 1865; from internal revenue, 310 millions, against 30 millions, and 271 millions estimate as above; and from miscellaneous sources, 17,000,000, against 26 millions, and [illegible]. The aggregate is 171 millions less than the actual receipts, and the aggregate estimate of 1865 over 80 millions less.

—The import entries for the past week (says the *New York Times*) including the the dry goods returns in our last paper, amount to about the same as the total entries of $3,587,374 during the previous week last year. The export clearances since week last year. The export clearances of domestic produce amount to $2,694,882, against $2,693,358 same week last year. The exports of specie amounts to $2,220,270, against $2,259 same week last year. The receipts of cotton the week are $2,842,287. The cotton shipped by railroad are 6875 bales. The number of passengers arrived during the week [illegible].

—The *New York Tribune*, of the 16th, says: "The movement of the one year certificates adds largely to the volume of the currency, and until it is absorbed insures a cheap money market. The next supply by the Treasury will be in payment of the Temporary loan, a process which will set free a further large amount of currency. All the present movement of the kind is to warn an expansion of currency which can have but one result, the stimulation of every speculative interest into new life, especially of dealing in stocks. The latter result is already seen in the prices at the Stock Exchange, and in the absence of a leading business interest to counteract the speculative impulse, when the paper money was in excess of production. None of the currency manipulations to suppress the glaring evil have been successful, but remains to be tried. Some attention early to the question of contraction in all directions. The business of the autumn of 1866 promises to be of great magnitude, the crops every where being large. Supplies of money will empty a great deal of money, but there will be no want of accommodation for all enterprises, legitimate or otherwise, if currency is not proceeded with, which, while hope grows daily less.

—We see it stated that an official offer will be made to exchange 7-30 notes of any of the series for 5-20s, the exchange to be made on equal terms as respects the principal, and the interest to be adjusted by balancing the amount due on each security. The exchange will be made at the Treasury, and without the intervention of agents. There are also rumors that it is the purpose of Secretary McCulloch to turn in all attention early to the liquidation of the Temporary loan; the accuracy of which, however, requires some confirmation, though the fitting is not improbable. —National bank currency again allows a tendency to accumulate at the large commercial cities. Some of the New York banks decline to recieve it on deposit, except on condition that the depositor shall draw it out again. It is quite possible that the liquidation of the certificates of indebtedness will throw upon the market a large additional amount of this description of money.

New York Stock and Money Market.

NEW YORK, July 17. The money market is working easy again and the supply of idle capital is rapidly accumulating. National bank currency is a source of trouble to the banks and it is very difficult to dispose of it. The demand for money at the Stock Exchange is freely met at 4@6 per cent., and prime paper passes at 5@7 per cent. The market for exchange was dull and lower towards the close of the day, with very little demand. At the last open board Erie was the favorite, and over 100 shares sold from 65 down to 63⅞, and afterwards up to 64¾. The balance of the market was generally lower in sympathy with the Erie. Sales the following were the closing prices at 4:30, p. m: Canton, 32½; Cumberland Coal Company, 40; Quicksilver Mining Company, 36½; New York Central 101¾@102; Hudson River, 114@114½; Reading, 100¾ to 101½; Michigan Southern, 82¾ to 83. Government securities were quiet this afternoon.

The following were the closing prices: Registered 1881, 109½@109¾; Coupon 1881, 109½@109¾; 5-20 Coupons, 1862, 107¾@107¾; 5-20 Coupons 1864, 105¾@105¾; 5-20s do 1865, 105¾@105¾; 10-40 Coupons, 105¾; 10-40s registered, 99¾@99¾; 7-30s, first series, 106⅛; August 1865, 104¾@104¾; June 7-30s, 104¾@104¾; July 7-30s, 104¼. Gold closed at 140¾@140¾.

Petroleum Stocks—Bennehoff Run Oil, 37½; Rynd Farm, 22; Central Run Oil, 210; United States, 70½.

Mining Stocks—Downesville, 70; Kipp and Buell, 130; New York Gold, 105; Quartz Hill, 42½.

The Post's money article says gold is strong to-day, in anticipation that the next news from Europe will be less favorable to the restoration of peace.

The stock market is irregular. Government steady without much activity. Railroad shares are rather lower, in sympathy with Erie, in which there was a sudden break in the last evening. Through the manipulations of speculators, after the board, New York Central sold at 101¾; Erie, 65¾.

New York Cattle Market.

NEW YORK, July 10.—The current prices for the week at all the markets are as follows:

BEEF CATTLE.—First quality, per head, $17.00@17.50; fair to second, $15@16; common, $14@15; inferior, $12@14.

VEAL CALVES.—First quality, per pound, 11@12; ordinary, 10@11c; common, 9@10c; inferior, 8@9c.

SHEEP AND LAMBS—Extra, per head, $7@8; prime quality, $6@7; ordinary, $5@6; common, $4@4.50; inferior, $3.50@4.00.

SWINE—Corn-fed, per pound, 10½@11c; fed on slops, 10@10½c.

The market for beef cattle is without decided change. The quality is sultry and exerting an influence on the market. Sales were slow at about last week's figures, but enough the number on sale was small and a large proportion of cattle were put on the market last week. Had the weather not been so excessively warm prices would have been higher. Veals were in demand and prices rule very much from last week. Sheep and Lambs sold quite briskly at from $5.50@6.50 for clipped, grades varying. Hogs have sold moderately fast considering the very unfavorable state of the weather. The total receipts of all stocks, at all the yards, for the week ending this evening, as reported by Allerton's Beeves, 7,883; cows, 16; calves, 675; sheep and lambs, 28. At Brownings—Beeves, 16; cows, 72; veal calves, 205; sheep and lambs, 3,222. At Gilfoyle's—Cows, 6; calves, 6; sheep and lambs, 800. At Chamberlain—Beeves, 2,000; cows, 162; sheep and lambs, 1,782. At Butcher's Interest—Beeves, 1,779; calves, 350; sheep and lambs, 2,993. Foot of 37th street—Swine, 6,975. Total beeves, 8,778; cows, 256; calves, 1,032; sheep and lambs, 19,247; swine, 6,976. Total last week—Beeves, 7,594; cows, 63; veal calves, 1,163; sheep and lambs, 14,719; swine, 12,347.

New York Produce Market.

NEW YORK, July 17.—Cotton firm, at 36@36c for middling uplands. Flour dull, heavy and 10@25c lower; sales of 10,000 bbls for extra State; $9.30@10.00 for extra round hoop Ohio, and $10.65@12.00 for trade brands, market closing dull. Whiskey quiet; sales at $2.30@2.32 tax gallons. Wheat, nois; market dull and 2c lower; sales 2,000 bus. at $2.10 for new No. 1 Milwaukee; $3.00 for new amber Chicago. Receipts of Rye is light and easy. Barley is heavy and dropping. Receipts of Barley, none; Barley is dull. Barley Malt is dull and nominal. Receipts of Oats are light and market opened firm, and closed a shade firmer, with a fair demand; sales 120,000 bus. at 86@86c for unsound new mixed western, and 87@87½c for sound. Receipts of Oats, 19,000 bus.; market 1c lower; sales 21,000 bus. at 56@56c for Chicago, and 86c for handsome new crop Jersey. Rice dull and for handsome new crop Jersey. Rice dull and nominal. Coffee firm; sales 3,000 bags Rio on private terms. Sugar quiet and steady; sales 475 hhds. terms. Sugar quiet and steady; sales 475 hhds. Cuba Muscovados at 10¾@12½c, and 246 boxes Havana at 12c. Molasses quiet. Hops quiet. Rosin heavy and lower; $3.12½@3.37½ for new mixed, and $3.50@3.62½ for No. 1. Petroleum firm, at 32½c for refined in bond. Pork dull and heavy; $21.12½@21.37½ for new mess, closing at $21.50 for regular; $21.50@22.00 for prime mess; $21.50@22.50 for prime. Beef steady; $16@17.50 for new plain mess; $21.50@22.50 for extra mess. Beef Hams nominal. Bacon dull. Cut Meats steady; 10½@10½c for shoulders, 13½@14c for hams. Lard dull at 18@20c. Butter dull, at 20@23c for Ohio, and 27@30c for State. Cheese dull and lower, at 9@12c.

Detroit Lumber Market.

Our market is nominally without change. The demand has been quieted down somewhat, a state of things which is not suggested what, a state of things which is not suggested by dealers, as it will give them an opportunity to catch up with their orders. By the time they get fairly stocked up the fall trade will set in, when, in the opinion of those best qualified to judge of the prospect, an advance will be established. This estimate is based on the fact that, while the stocks are light in the yards generally throughout the country, the demand will be very large for building purposes. In this city there are more places for building now in contemplation than at any former period.—[Post, July 14.

Philadelphia Cattle Market.

PHILADELPHIA, July 16.—The cattle market continues dull but prices are rather higher, owing to the light receipts, which only reach about 1800 head. Extra are selling at 17@18 cents, fair to good at 16@17 cents, and 14@16c per lb for common, as to quality.

Sheep are in fair demand at former rates; 8000 head arrived and sold at from 6@6½c per head gross, or 8@9c per lb net.

Hogs are rather firmer; 1200 head sold at the Avenue yards at $14@14.50 the 100 lbs net, the latter for fancy.

Buffalo Market.

BUFFALO, July 17.—Flour quiet. Wheat dull, inactive and unchanged. Corn; sales early this morning of 8,000 bus. at 80c; later sales 60,000 bus. at 81c; closing at 80½c. Oats dull; sales at 70c for No 2, and 70½@71c for No 1; and holding quiet, buyers offering 70c for No 2, and holders asking 71c. Rye nominally and inactive, at about 85c for No 1. Barley and Rye about the same. Pork, Lard, Dry Salted Meats nominal. Pork, 22@23c. Lard, 21c. Whisky inactive and nominal.

Milwaukee Market.

MILWAUKEE, July 17.—Flour firm. Wheat unsettled; sales at $1.85 for No. 1. Corn 56@56c. Oats 29c.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, July 17, 1866.

The dullness and stagnation which have prevailed for some days past still continue, and the produce markets instead of improving are getting worse. It seems almost impossible to move anything, owing to a want of confidence and, what is worse than all, there are no indications at present of any immediate improvement. The western markets have been very panicky for some days past. In Toledo Wheat has declined from 65 to 70 cents per bush el, while at Chicago, No. 1 Spring, which a short time since was varying very closely on par, is now quoted at $1.80 to $1.85. The decline in Wheat has of course given Flour a "black eye" —one from the effects of which it is not likely soon to recover.

ASHES—Firm and moderately active but unchanged. Sales of 10 tons common Pots Ash at 6¾ @ 7c; Refined ditto at 9½; and 7 tons Pearls 10½.

GRAIN—Wheat continues very dull, but as there have been no transactions for days, it is impossible to give quotations. No. 1 Chicago Spring are offering in elevator at 48, and find but few buyers. Prime White Oats may be quoted 46@48 cents higher. Corn is very dull; small sales from store at 80 to 85, according to quality. Sale of 1 car Ohio Rye at $1; and 100 bush prime Western ditto at $1.02. No movement in Barley or Buckwheat.

PROVISIONS—Bacon is firm but unchanged. We continue to quote at 17 to 17½c for Shoulders 19½ to 20 for Ribbed Sides; and 25 for Sugar cured Hams. Lard is dull at 21½@22. Mess Pork dull and nominal.

FLOUR—Is dull and weak, and a round lot could be purchased at a material reduction. In a regular way from store, prices have undergone but little change—$10 to $11 for Spring Wheat; $12 to 13 for Winter; and $14 to $16 for fancy brands.

MILL FEED—Is reported in good demand and tending upward. Sale of 1 car Seconds at $1.35; and 1 car Chopping at $1.40.

TIE LEAD—Sale of 300 pigs at 11¾@12.

BUTTER—Is in moderate demand at 20 to 22 for packed, in first hands. Sale of 25 kegs prime, on second hands, at 23.

EGGS—Dull and irregular, sales being reported at 16 to 18.

POTATOES—A little better but unchanged. We continue to quote at $2.75@3 per bbl.

HAY—Is selling at $17@19 for new, and old may be quoted at $20 to $24.

OIL—Sales of No. 1 Lard at $1.80.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, July 17, 1866.

CRUDE—There are no new characteristics in the Crude market worthy of special notice. The demand continues somewhat restricted, and, notwithstanding the supply is exceedingly light, and there are no indications at present of any increased activity, the market cannot be said to be excited, while prices have undergone no essential change. We continue to quote at 11@11½ bbls returned; and 16@17, bbls included, according to gravity, and these may be regarded as the extremes of the market. Sale of 500 bbls, to arrive, at 12 cts. There is no improvement to note in regard to the general tone of the markets in this east, and we refer to the same remarks will apply to Crude at the wells, although we have no definite reports from there.

The first foreign steamer has arrived and her oil news is reported unfavorable. This, of course, will not tend to infuse life or animation in our already broken down and demoralized market, but, on the contrary, will have a tendency to still further depress, if such a thing were possible, and stagnate the trade both for crude and refined. There was not a single operation in bonded oil to-day that we could hear of, and yesterday's prices could not be realized to-day. On Monday there was a sale of 5000 bbls for september delivery in Philadelphia, at 39; and it said that there was a sale of 1000 bbls, there, for the same month, at 38. No improvement in free oil.

ARRIVALS—There has not been a single arrival or oil by the Allegheny River since our last report. Messrs. Waring & King received by Express from "Seneca Farm" and A. Bly received a car load on the P. F. W. & C. R. R., and W. McCutcheon, 53 bbls.

ALLEGHENY CATTLE MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, July 17, 1866.

CATTLE—The supply of cattle was again tight this week, not exceeding six hundred head, but the demand was also very much restricted, and the market ruled dull and neglected, and some nine or ten car loads were left over unsold. In consequence of the excessively hot weather, the butchers bought very sparingly, and, comparatively speaking, there was no demand for shipment. Of the cattle offered, the great bulk were from Ohio, some few from Pennsylvania, and a drove or two from Chicago. A few weeks since nearly all the cattle offered in this market were bought in Chicago, but now our drovers, it appears, can buy a better quality of cattle at relatively lower figures nearer home. As will be seen by tolregrams to the sales, good to extra fat cattle sold at from 8 to 8½ gross, very few selling above 8½, while medium grades brought from 7 to 7½. Stock cattle may be fairly quoted at 5½ to 6½, according to quality and condition. Inferior sold at from 3½ to 4½; fair to good steers and bulls. Messrs. Marks & Trautman report having sold as low as 3½ and as high as 8½. Wolfe disposed of some bulls at 4½.

SHEEP—There was a moderate supply of Sheep, and with a fair demand the market ruled steady and last week's prices were fully sustained. We quote at 5 to 5½ per pound, gross, for fair to good, and 6 to 6½ for prime to extra fat mutton sheep. Lambs may be quoted at from 3 to 4 per head. Mutton is now the cheapest meat in market and, fortunately it is regarded as the most healthful, being recommended during the hot season in preference to either Beef, Pork or Veal.

HOGS—There is next to nothing doing in this class of stock at these yards. Some few small sales in a retail way, and we quote nominally at 10 to 10½ gross.

REPORTED SALES OF CATTLE.

Greenwald & Kahn retailed 75 head at 7 to 8; Rahmelkie & Eckert, 40 head at 7½@8¼; Hazlewood & Co., 72 head at 7½@8¼; John Kerwin sold 19 head for Read Iswood & Co. at 7½@8¼; D. Wolfe, 19 head mixed Ohio cattle at 6½ to 8½; Myers & Needy 20 head, and Merrick & Doud 18.

Kraus & Bair wholesaled 55 head of extra Ohio steers to L. Shamberg, averaging 1400 lbs at 8½ per head; retailed 18 head at 8 to 8½.

Oliver Quick wholesaled to Mr. A. Thompson 36 head of fattish western cattle, averaging about 950, at 7.10.

Marks & Trautman sold 15 head of pretty good stock cattle to Wolfe, averaging 800 at 7@7½ head to Myers & Needy, and retailed 8 head at 3½ to 8½.

Glass & Lafferty retailed 36 head of Illinois cattle at 7½ to 8½; John H. Glass sold 25 head of ff Penna. stock steers at 5 to 6, and had 18 head left over.

Emerick & Co. had 53 head left over.

St. Louis Market.

ST. LOUIS, July 17.—Flour in fair demand and 25c lower on medium low grades; 50c on best qualities; 7½@8c on extra spring; 8½@9c on extra fall, and 10½@11c on double extra. Wheat in good demand; fall, $2.30; prime, $2.36@2.37; choice, $2.39@2.45. Corn—White prime, 86@86c; mixed yellow, 86@87c. Oats drooping, at 68@69c. Pork unchanged. Bacon shoulders, 16c. Clear sides, 21¼@21½. Whisky active, at $2.19@2.20.

Chicago Market.

CHICAGO, July 17.—Flour dull and declined 25@50c. Wheat unsettled, and declined 4@6c; sales at $1.43@1.48 for No. 1, and 90c for No. 2. Corn active and advanced 2@2½c; sales at 69@70c for No. 1, and 52@54c for No. 2. Oats dull and declined 1c; sales at 28@29½ for No. 1, and 26@27c for No. 2 Provisions dull.

New Orleans Market.

NEW ORLEANS, July 17.—Cotton firm; sales 1,200 bales low middling at 22@23c; to-day's receipts, 37 bales; receipts for four days, 869 bales, against 1,257 last week; exports, 1,367 bales; stock, 30,400 bales. Sterling, 65. New York Exchange, par ¼ premium. Freights firm; New York, ⅛; Liverpool, ⅜.

Toledo Market.

TOLEDO, July 17.—Flour dull and declining. Wheat dull and lower; sales of Amber at $1.30; No. 2 Amber $1.45. Corn a shade firmer at $1@1.02c for No. 1 mixed; 78c for No. 1 white; 96c do. yellow. Oats is lower. Lake freights dull and nominal.

RIVER NEWS.

The river has undergone but little change since our last report, the pier marks indicating about twenty inches last evening. The weather continues excessively hot, the mercury indicating from 95 to 98 in the shade during the day. Towards evening it became cloudy and a strong breeze sprung up, which cooled the atmosphere temporarily, and about 5 o'clock there was a slight sprinkling of rain, but it only lasted a moment.

At the loain landing business may virtually be considered suspended. The Monongahela River packets continue to run regularly, and the Gallatin, Capt. Carlise, and the Elector, Capt. Phillips, are the regular packets for Brownsville this evening, leaving at 5 o'clock.

The Pittsburgh and Zanesville packet Julia, as been ch atered, and is now plying in the Wheeling and Parkersburg trade.

The case of the steamboat Spray, which was seized some days since on the libel of T. A. Parke well and others, was again before the U. S. Court yesterday morning. The marshal having made his return that he had duly attached the boat, on motion of the counsel for the libellants, the local furniture was ordered to be condemned and sold. It was ordered that the clerk of the court ascertain the amounts due the libellants and report the same.

The following boats were in port at Cincinnati on Sunday: T. J. Pickett, Minneola, Naugatuck, Shamrock, Mary Erwin, Pine Grove, Emma No. 3, Lorena, Wm. Butler, Abrams.

Monday's Cincinnati *Gazette* says: The Tahlequah in command of Captain Abrams, left for Nashville Saturday, with about 200 tons freight, including 375 barrels pork on Government account.

STEAMBOAT ENGINEERS' CONVENTION AT LOUISVILLE.—The proceedings of this important convention at Louisville was brought to a close on Thursday. The most perfect harmony prevailed during the session. The convention unanimously passed the following: Resolved, That in this consideration of the stringency of the steamboat law in regard to engineers, that as a matter of justice to the craft that the law in regard to the manufacture of boiler-iron be strictly enforced against all manufacturers of boiler-iron, for the reason that it has become common for manufacturers to stamp boiler-iron—entirely regardless of its quality, as being charcoal iron—in conformity with the law of Congress in regard to that material.

And be it further resolved, That each local association be instructed to memorialize Congress for the enforcement of the a ove mentioned law; believing, as we do, that all experience and attention on the part of the engineer in charge is of no avail when the boilers are constructed of material of inferior quality.

The Convention then adjourned, to meet at Memphis on the first Monday in May, 1867.

THE NEW

Spring and Summer Medicine.

FLUID EXTRACT

SARSAPARILLA,

COMBINED WITH

Iodide of Lime,

PREPARED FOR

G. W. PETTES, BOSTON,

BY

James R. Nichols & Co.,

MANUFACTURING CHEMISTS,

MANUFACTURERS OF THE

ELIXIR PERUVIAN BARK

WITH

Protoxide of Iron,

Which has become so favorably known as a

Tonic and Restorative,

By Physicians and Invalids in all parts of the country.

The new preparation, "SARSAPARILLA IN COMBINATION WITH IODIDE OF LIME," presents one of the most prompt alterative agents in a form capable of exerting full action upon the system, and this in minute and pleasant doses. It is conceded that the alterative, resolvent, or tonic effects of iodine, are exerted most decidedly when associated with other alteratives, in combination; and the Sarsaparilla seems to fulfil perfectly all the favorable requisitions.

The first effects usually observed when "SARSAPARILLA WITH IODIDE OF LIME" is taken, is an increase of appetite, showing that it has tonic properties of a marked character. Its alterative effects are manifest in its ready combination with the blood and tissues.

Health, scrofulous women and children improve rapidly under its use, and the vital functions assume a healthy condition.

It is admirably adapted to a large number of chronic or acute affections peculiar to children. It is suited to them, both by the mildness and efficiency of Medicinal effect and the pleasant, attractive form of the remedy. It may be given for a long period where constitutional influences are desired, and no repugnance, or disinclination to the syrup, encountered. In White-Swellings, Joint Disease, and Distortions of the Spine, it should be given persistently, in moderate doses, until relief is obtained.

In the Spring of the Year, and during the Warm Weather.

The accumulation of morbid matters in the system seems to become manifest and very troublesome. Lassitude, Headache, Boils, Costiveness, Loss of Appetite, Pains in the Limbs, Indigestion, etc., are very common. Nothing ever devised is better adapted to exterminate or drive off these affections than this new combination of SARSAPARILLA WITH IODIDE OF LIME.

No preparation like it, or which approximates to it as an

Alterative, or Blood Purifier,

has ever before been placed within the reach of mankind. Indeed, it is an entirely NEW and SCIENTIFIC combination, in no respect resembling anything hitherto employed.

The opinion of medical men concerning it, the description of its chemical character, therapeutic value, manner of use, etc., are given in a circular, which can be had at the store of any and all Druggists throughout the country.
